PROFESSIONAL SUMMARY

Data Science professional with an M.Com background and experience in business operations, team leadership, MIS reporting and data analytics. Currently working as a Data Analyst at Global Connect Business Solutions. Skilled in Python, SQL, Machine Learning, Deep Learning, Exploratory Data Analysis and Data Visualization. Hands-on experience developing predictive models, analytical dashboards and end-to-end Data Science projects. Passionate about transforming complex data into actionable business insights.

PROFESSIONAL EXPERIENCE

GLOBAL CONNECT BUSINESS SOLUTIONS — June 2024 – Present

Data Analyst — *November 2026 – Present*

- Collecting, cleaning and analysing business data; performing validation and transformation.
- Developing analytical reports and dashboards using Python, SQL and Excel.
- Identifying trends and patterns; creating visualisations to support management decisions.
- Supporting reporting automation and operational analysis.

MIS Coordinator — *September 2026 – October 2026*

- Prepared daily, weekly and monthly MIS reports; collected, validated and analysed operational data.
- Developed Excel reports using Pivot Tables and VLOOKUP; monitored productivity and performance.
- Prepared management reports and dashboards while ensuring data accuracy and timely reporting.

Team In-Charge — *January 2026 – August 2026*

- Managed daily team operations, workflow and task allocation; monitored productivity, quality and turnaround time.
- Supported issue resolution, coordinated with management and prepared team performance updates.

Senior Process Executive — *June 2024 – December 2025*

- Handled UAE VAT registration and invoice setup in line with FTA guidelines; supported Corporate Tax registration and de-registration.
- Managed customs registration and FTA linking, GoAML procedures, client coordination and compliance records.

JAI ASSOCIATES | AUDIT ASSISTANCE — July 2023 – May 2024

- Prepared trading accounts, Profit & Loss statements and balance sheets; recorded transactions in Tally ERP and maintained ledgers.
- Reconciled bank statements, supported GST return preparation and maintained audit-ready financial documentation.

EDUCATION & TRAINING

- M.Com – 83% | Jamal Mohamed College | 2021–2023
- B.Com – 76% | Jamal Mohamed College | 2018–2021
- GUVI – Data Science Course: Python, SQL, Statistics, EDA, Data Preprocessing, Machine Learning, Deep Learning and Streamlit.

SELECTED DATA SCIENCE PROJECTS

Cross Market Intelligence Dashboard

Python, SQL, SQLite, Pandas, Plotly, Streamlit

Developed a multi-page interactive dashboard analysing cryptocurrency, crude oil and global stock market indices; implemented SQL-based analytics and market insights.

Diamond Price Prediction & Market Segmentation

Python, Pandas, Scikit-learn, Random Forest, Clustering, SQLite, Streamlit

Built a machine learning model for diamond price prediction and implemented market segmentation using clustering; performed preprocessing, feature engineering and model evaluation.

Global Literacy & Education Trends

Python, Pandas, Data Visualization, Streamlit

Conducted exploratory analysis on global literacy datasets, performed data cleaning and trend analysis, and developed an interactive analytical dashboard.

Brain Tumor MRI Image Classification

Python, TensorFlow, Keras, MobileNetV2, Streamlit

Developed an MRI image classification project using MobileNetV2 with TensorFlow and Keras, with an interactive classification interface.

Banana Ripeness Classification

Python, YOLOv8, Roboflow, Computer Vision

Developed a computer vision solution to classify banana images into Unripe, Ripe, Overripe and Rotten categories.

EcoType – Forest Cover Type Prediction

Python, Pandas, Scikit-learn, Machine Learning

Developed a classification model to predict forest cover types and performed data preprocessing, feature analysis and model evaluation.

TECHNICAL SKILLS

Programming:
Python, SQL

Data Analysis:
Pandas, NumPy, EDA, Data Cleaning, Data Preprocessing, Data Transformation

Visualization:
Matplotlib, Seaborn, Plotly, Excel Dashboards

Machine Learning:
Scikit-learn, Linear & Logistic Regression, Decision Tree, Random Forest, KNN, XGBoost, Classification, Regression, Clustering, Model Evaluation

Deep Learning:
TensorFlow, Keras, MobileNetV2, YOLOv8, Computer Vision

Databases & Tools:
MySQL, SQLite, Jupyter Notebook, Google Colab, VS Code, GitHub, Streamlit, Roboflow

Advanced Excel:
Pivot Tables, VLOOKUP, Macros, MIS Reporting, Dashboard Development

ADDITIONAL ACADEMIC WORK

- Research project (ICSSR, New Delhi): Study of smartphone usage patterns and preferences among college students in Tiruchirappalli.
- Introduction to Goods and Services Tax (GST); six-day virtual workshop on effective share trading strategies at Jamal Mohamed College.
